

# BRAKES

## POWER BOOST DRUM/DISK BRAKE TRAINER: MEG680PB

### DESCRIPTION:

This Automotive Brake Trainer has both drum and disc brakes mounted on a welded steel chassis for bench top assembly. This hands-on program offers in-depth training in the areas of servicing/replacing parts. The program covers adjusting brakes, flushing hydraulic fluids, reconditioning of brakes, replacing hoses and tubes, servicing master cylinders. Each trainer is large enough to allow 2 students to be active while learning hands on automotive skills.

### INCLUDES:

- Solid steel stand
- Hydraulic gauges
- Power boost with vacuum pump
- GM components
- Brake pedal and switch
- Emergency brake

## DRUM/DISK BRAKE TRAINER: MEG680

### DESCRIPTION:

This Basic Brake Trainer has both drum and disc brakes mounted on a board to provide benchwork. This hands-on program offers in-depth training in the areas of servicing/replacing parts. The program covers adjusting brakes, flushing hydraulic fluids, reconditioning of brakes, replacing hoses, tubes, and servicing master cylinders.

The Trainer is made from automotive components that are mounted on a Mylar base, erasable surface with heavy impact rubber strip. Each trainer is large enough to allow 2-3 students to be active while learning hands on automotive skills.

### INCLUDES:

- Flat configuration
- Easy for overhaul
- Full hydraulic set-up
- Emergency brake
