

MANUAL DRIVE TRAIN AND AXLES

CUTAWAY

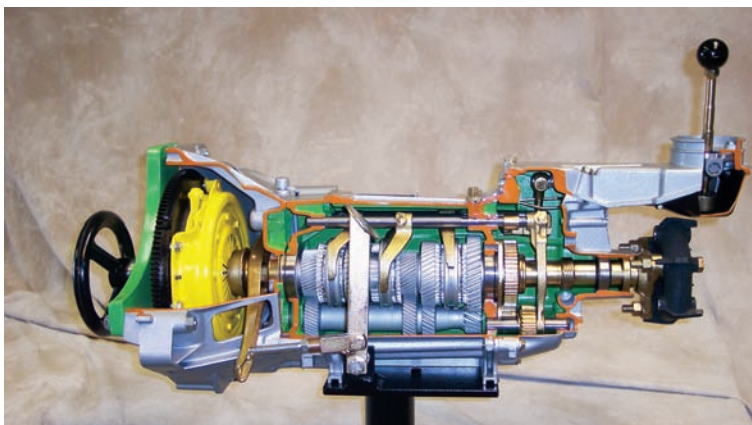

MEGART1120

As part of the ASE specialization, Megatech makes these cutaways available based on different models. A combination of cross-sectional cut-aways, as fabricated by Megatech, and well selected audio-visuals make teaching an easier task.

MEGART1130

MEGART1101

- Self standing
- Full movement
- Beautifully painted
- Mobile stand

PROGRAM: This trainer provides the school with a work station where the student can study all the components, use the trainers, utilize audio visuals and follow the Competency Based Courseware. With this type of knowledge and preliminary hands-on activities, the student can proceed to work on live vehicles to gain service experience.
