

ENGINE REPAIR

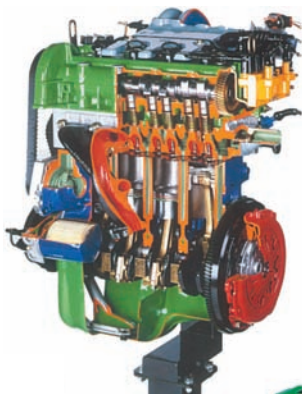

ENGINE REPAIR PROGRAM MEG003

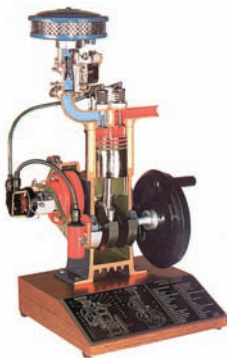

DESCRIPTION:

Megatech's MEG003 Engine Repair Program provides hands on training for those who wish to specialize in engine repair. The stand has 250 degree rotation heads which lock in any position, a 23" handle to allow easy rotation to the engine and big 3" diameter steel wheels to provide smooth maneuvering. The engine stand provides a stable work-bench for major engine service suitable for use by schools, professional mechanics, and engine rebuilders. The engine stand features a rugged tubular frame which supports up to 1,250 pounds. Includes engine, stand and tools for overhaul with curriculum.
